

Framework Operating Requirements (FOR)
Program for transition and development

This document is confidential and for the EHC Implementation Board only. It is not for onward circulation so please do not forward on.

Assumptions

1. The quality mark will manage the delivery of the FOR through the schemes, it will not undertake monitoring of the businesses as this will be a specific requirement of the scheme provider based upon the sector.
2. The work streams from the EHC initiative will be transition into the FOR as they come to fruition.
3. TrustMark and MCS schemes will be engaged within the process.
4. The FOR will be the core document that will drive the audit and compliance requirements for the schemes.
5. The final document will be presented to BEIS for inclusion within the Government Endorsed Standards scheme.
